DS DASH

Ransomware Protection Audit

DS Compliance is delighted to announce our new DS Dash: Ransomware Audit Service.

We provide assistance for our clients to prepare and protect business against attack.

Areas to focus on:

Personnel Training	Business continuity
Simulation role-playing Ransomware tabletop sessions	Technology Management (Layered Security Model)
External Pen Testing	Management and review of Log data
Backup capability/Strategy	Internal Audit
Access privileges/MFA	Documentation management
Patching Vulnerability Management	Development of KPI's
Antivirus	Ensure Risk appetite is managed
Web filtering	Supplier risk Management
Mail Filtering	Due diligence questionnaires
Secure DNS	Manage Outside Parties, Penetration testing, Vulnerability testing
Home working security review	Breach and Incident management

PLUS

Incident Response Management – available as a one off or as a retained support service.
